COURSE FOR NEW EMPLOYEES

Greenland Representation in Copenhagen holds the course for new employees 11 times a year. It is a two days course - typically the first Thursday and Friday in the month - and it's like an introduction to all public and private positions in companies or workplaces in Greenland.

CONTENT OF THE COURSE

The participant will get a unique insight into everyday life in Greenland, as well as obtain useful information about the society in which he or she will be a part of. We strive - of

course with great love the country for the country - to present Greenland as a modern and exciting society, as well as presenting the challenges that exist.

The following themes are reviewed: communication and infrastructure, information about taxes, fees, CITES, VAT etc., animals and nature, cities, safety in nature, modern Greenland versus "old", home rule versus now a days Government of Greenland, minerals extraction, a little about language, prejudices, challenges, mentality, humor and cultural understanding as a central part of the course.

We strive to organize the course according to the participants' individual needs and active participation, so that the course becomes a dynamic experience for everyone.

Continuously the course will be reviewed and rectified. The participant will submit feedback about the course continuously. Here is some of the feedback we have got.

The course offered interesting lectures about geopolitics, business life, the traditional community of hunting etc., it helps me to expand my possibilities but also to refer to and break any prejudices there could be.

"Informative, relationships, motivating".
